

IILM UNIVERSITY

Greater Noida, Uttar Pradesh

AICTE & ICAC APPROVED • NATIONAL INTERNSHIP PORTAL

Web Developer Internship

An Internship Report Presentation • School of Computer Science & Engineering

INTERNSHIP DURATION

25 July 2026 – 25 August 2026 (1 Month)

HOST ORGANIZATION

Codec Technologies Pvt. Ltd.

STUDENT CREDENTIALS

Avanish Singh

Roll Number

25SCS1003003127

Degree & Semester

B.Tech (CSE) — 3rd Semester

Academic Batch

2026 – 2027

CODEC
TECHNOLOGIES

Candidate & Program Overview

Candidate Details

STUDENT NAME	Avanish Singh
ROLL NUMBER	25SCS1003003127
DEGREE PROGRAMME	B.Tech (Computer Science & Engineering)
SEMESTER	3rd Semester
ACADEMIC BATCH	2026 – 2027
UNIVERSITY	IILM University, Greater Noida, U.P.

Internship Profile

PROGRAM	AICTE & ICAC Approved — National Internship Portal
HOST ORGANIZATION	Codec Technologies Pvt. Ltd.
DESIGNATION	Web Developer Intern
DURATION	25/07/2026 – 25/08/2026 (1 Month)
LOCATION & MODE	Pan India, Hybrid
NCS ID	E19E86-0116588288923

Organization Profile: Codec Technologies

Codec Technologies Pvt. Ltd. is an ISO 9001:2015 certified, Google-for-Education-partner organization delivering dedicated IT and business consultancy services across 27+ countries — empowering global innovation, strategic growth, and meaningful career pathways for emerging talent.

AICTE Collaboration

Registered under the AICTE National Internship Portal, delivering approved, structured internship pathways to engineering students across India.

Global IT Consultancy

Delivers dedicated IT and business consultancy services across 27+ countries, connecting learners to real career opportunities worldwide.

Google for Education Partner

Recognized Google for Education partner, reinforcing the credibility and quality of its structured, industry-aligned learning content.

Core Focus Domain

Structured, industry-aligned learning pathway in Web Development — HTML/CSS/JS, responsive design, frameworks, back-end & deployment.

Problem Statement & Industry Context

THE GAP

Theory-Heavy Coursework, Limited Hands-On Exposure

Engineering students commonly study web technologies as academic coursework, but very few get structured, hands-on exposure to the complete web-development workflow — from HTML/CSS/JavaScript through responsive design, frameworks, back-end logic, and finally consuming APIs and deploying a finished application.

THE RESPONSE

An End-to-End, Industry-Mentored Web Development Pathway

This internship addresses that gap directly: practically learning and applying the complete web-development workflow — building a strong foundation, then moving through responsive design, front-end frameworks, back-end concepts, APIs, and deployment — inside a structured, industry-mentored programme.

Core Project Objectives

01

Web Fundamentals

Build a strong foundation in HTML, CSS and JavaScript to structure, style and add interactivity to web pages.

02

Responsive & Frameworks

Apply responsive design techniques and Bootstrap to build multi-device layouts and standardized UI.

03

Back-End & APIs

Understand back-end development basics and use APIs & web services to connect front-end and back-end systems.

04

Deployment & Clean Code

Write clean, semantic, maintainable code and deploy a complete, working web application.

Technologies & Tools Used

Markup, Styling & Scripting

- HTML5 — semantic structure
- CSS3 — styling & layout
- JavaScript — interactivity & logic

Responsive Design

- Media queries
- Mobile-first layout techniques
- Cross-device adaptive UI

Front-End Framework

- Bootstrap — component library
- Grid system & utility classes
- Rapid, standardized UI builds

Back-End & Integration

- Server-side fundamentals
- APIs & Web Services
- Client–server data exchange

System Architecture — Layered Learning Model

Curriculum Timeline — Week-wise Progress (100% Complete)

Course completion verified at 100% via the internship learning-portal tracker (see Certification slide).

Key Learnings & Skills Demonstrated

Semantic, Clean HTML & CSS

Structured and styled web pages using semantic HTML view/tags and maintainable CSS practices.

Responsive UI with Bootstrap

Built a fully responsive website using Bootstrap's grid system and components across device sizes.

JavaScript-Driven Interactivity

Applied JavaScript fundamentals to add logic and interactivity to front-end pages.

API & Web-Service Integration

Connected front-end and back-end systems using APIs and web services.

End-to-End App Deployment

Built and deployed a complete, responsive web application incorporating all concepts learned.

Certification & Official Verification

Verification Metric	Official Record / Credential Details
Internship Title	Web Developer Intern — 1 Month AICTE & ICAC Approved Program
Issuing Organization	Codec Technologies Pvt. Ltd. (ISO 9001:2015 Certified)
Academic Patronage	AICTE National Internship Portal
Duration	25/07/2026 – 25/08/2026 (1 Month)
AICTE ID	CORPORATE6759d549ce59e1733940553
NCS ID / Offer Ref.	E19E86-0116588288923
Program Manager	Dr. Anurag Shrivastava
Course Completion	100% — All 4 weeks + Industrial Project

Certificate of Internship

CERTIFICATE OF INTERNSHIP

This certificate is awarded to
Avanish Singh

From Codec Technologies Pvt. Ltd.

In recognition of his/her efforts and achievements in completing the 1 Month AICTE & ICAC

Approved internship program as

Web Developer Intern

Conducted from 25/07/2026 to 25/08/2026

Google for Education
Partner

AICTE ID - CORPORATE6759d549ce59e1733940553

A handwritten signature in black ink, appearing to read "Anurag".
